

WITH OUR NEWLY DEVELOPED OPERA STAGE FLOOR SYSTEM, ALL OUR STAGES, STANDS AND TENTS CAN BE BUILT, AND ALL THREE TENT SIZES (10x12, 15x17, 18x21) CONNECTED TO THE SYSTEM FLOOR.

WITH THE DEVELOPMENT OF NEW COMPONENT PARTS, IT IS POSSIBLE FOR US TO CONNECT THE

TENTS MECHANICALLY WITH THE SUBSTRUCTURE. THIS ALLOWS US TO EASILY COMPENSATE FOR UNEVEN TERRAIN AND TO BUILD AROUND OBSTACLES. FURTHER ADVANTAGES OF THE SYSTEM ARE THAT IT ENABLES MORE EFFICIENT BALLASTING (50% LESS) AND CAN BE USED FOR LARGE STAGE EVENTS OR SIMPLY AS A TENT FLOOR.
